### Government Giving Aid.

"The department of agriculture and other agencies are actively assisting the farmers to locate, safeguard and secure at cost an adequate supply of sound seed. The department has \$2,-500,000 available for this purpose now and has asked the congress for \$6, 000,000 more. "The labor problem is one of great

difficulty and some of the best agencies of the nation are addressing themselves to the task of solving it, so far as it is possible to solve it. Farmers have not been exempted from the draft. I know that they would not wish to be. I take it for granted they would not wish to be put in a class by themselves in this respect. But the attention of the war department has been very seriously centered upon the task of interfering with the labor of the farms as little as possible and under the new draft regulations I be-lieve that the farmers of the country will find that their supply of labor is very much less seriously drawn upon than it was under the first draft, made before we had had our present full experience in these perplexing matters. The supply of labor in all industries is a matter we must look to and are looking to with diligent

care.

"And let me say that the stimula-tion of the agencies I have enumerated has been responded to by the farmers in splendid fashion. I dare say that you are aware that the farmers of this country are as efficient as any other farmers in the world. They do not produce more per acre than the farmers in Europe. It is not necessary that they should do so. It would perhaps be had economy for them to attempt it. But they do produce two to three or four times more per man, per unit of labor and capi-tal, than farmers of any European country. They are more alert and use
